 girlscouts Yes—it's true! @gretathunberg is TIME's 2019 Person of the Year!! Just over a year ago, a quiet and mostly friendless teenager woke up, put on her blue hoodie, and sat by herself for hours in an act of singular defiance. Fourteen months later, she had become the voice of millions, a symbol of a rising global rebellion. The politics of climate action are as entrenched and complex as the phenomenon itself, and @gretathunberg has no magic solution. But she has succeeded in creating a global attitudinal shift, transforming millions of vague, middle-of-the-night anxieties into a worldwide movement calling for urgent change. #Repost @Time @evgenia\_arbugeva #ClimateJustice #GirlScouts #ClimateAction #GretaThunberg

As millions of students around the world take a stand on climate change, here are four things you can do. #ClimateStrike

Support Her as She Stands Up for Change  
 Listen to what your girl has to say about the issues she cares about. You might just learn a thing or two.
